SUNNY MALLICK   FULL STACK WEB DEVELOPER

t: 801-708-4403   e: sunny.mallick927@gmail.com   l: Salt Lake City, UT   Portfolio   LinkedIn   Github

SKILLS

JavaScript, Python, React, Redux, Express, Flask, HTML5, CSS3, PostgreSQL, Pug, Sequelize, Jinja, Heroku, Docker, Git, Node.js, AWS, Pug, Jinja, Object-Oriented Programming (OOP), Test-Driven Development (TDD)

PROJECTS

Cars 'R' Us | *(React/Redux, Flask/SQLAlchemy, HTML5/CSS3, Javascript, Python, Docker, AWS S3)* **live** | **github**
A clone of BringATrailer and Cars & Bids
- Utilized the **React/Redux library** to create a seamless **UI/UX** experience for auction hosting and browsing
- Implemented **Amazon AWS S3** photo-upload services to allow for scalability and an intuitive user experience
- Increased site security for all inputs and forms by incorporating cross-site request forgery

Table-Talk | *(React/Redux, Flask/SQLAlchemy, HTML5/CSS3, Javascript, Python)* **live** | **github**
A clone of OpenTable and Meetup
- Implemented two different user types using **PostgreSQL** tables for Business users and customers
- Configured **SQLAlchemy** queries to load different site interfaces based on the logged in user type
- Integrated the Redux library to allow for unidirectional data flow for customer reservations and reviews

Marvelous Movies and Reviews | *(HTML5, CSS3, Pug, Express, Sequelize, Heroku)* **live** | **github**
A clone of GoodReads
- Incorporated Pug templates to create a unique Marvel themed user interface styled with pure CSS3
- Utilized **Express backend** queries to dynamically display movies in alphabetical order for user accessibility
- Developed **Sequelize seeders** for Marvel movies in a PostgreSQL database to enhance user experience with quick load times

EXPERIENCE

Account Manager - *Ogden Peak Communications*   Jan 2019 - Dec 2019
- Designed a unique UX/UI website using the CSS Bootstrap library for a Utah based rehabilitation center
- Directed 5 different photography and videography projects for clients and university events

Technology Specialist - *Mark Miller Toyota*   Mar 2016 - May 2019
- Created original social media content for Facebook, Instagram and Twitter highlighting dealership promotions increasing traffic by 65%
- Assisted new car customers with the technical features and functions of their vehicle to ensure purchase satisfaction
- Analyzed sales data for dealership management to drive resource allocation designations to further organizational goals

EDUCATION

App Academy - Full Stack Software Engineering Bootcamp   2021
- Immersive software development program with focus on full stack web development with a <3% acceptance rate
- Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Test-Driven Development

Weber State University, Ogden, UT - *B.S. Marketing, Public Relations and Advertising, 2018-2019*
